Workshop Sessions

Access to Palliative Care for Vulnerable Groups

Anne-Catherine Gerber, MA RN

Institute of Nursing Science, University Basel

Specialised Paediatric Palliative Care: Assessing Clinical and Service outcomes in multi-site care settings using real world data (SPhAERA-CS)

Stefan Mitterer, MPhil HE

University of Basel, Department Public Health - Nursing Science

Specialised Paediatric Palliative Care: Assessing Economic and health system outcomes in a multi-site context of various care settings (SPhAERA-E)

Andreas Samuel Ebnetter

University Centre for Palliative Care, Inselspital Bern

Epall – Digital health interventions in a relationship-based specialty: complementary or counterproductive?

Self-determination in End of Life Care

Lisa Hentsch

Department of Geriatrics and Rehabilitation, Geneva University Hospital

Interprofessional Systematic Intervention centred on Patient-Project in Acute Palliative Care Units: the InterSysProPal Trial

Clément Meier

Faculty of Biology and Medicine at the University of Lausanne, Junior Researcher at the Faculty of Business and Economics (HEC) at the University of Lausanne

Association of health literacy with the approval and completion of advance directive among older adults in Switzerland

Julia Rehsman

Bern University of Applied Sciences, Department of Health Professions

Dealing with the unbearable: Deep sedation until death in specialized palliative care

Marina Maier

University Centre for Palliative Care, Inselspital Bern

PROAKTIV: A nested qualitative study and Master-thesis

Sarah Vilpert

Faculty of biology and medicine at the University of Lausanne, Swiss Centre of Expertise in the Social Sciences (FORS)

Are beliefs towards and knowledge about the end of life determinants of advance directive completion? Evidence from a Swiss Population-based Study

Gaudenz Metzger, M.A.

Zurich University of the Arts ZHdK

From social photography on Facebook to religious communication via smartphone app - online practices of terminally ill people for coping with dying and death

The intersection between Health Promotion, Community Health and Palliative Care

Carolina Pedraza, Dr med.

Department of Health Sciences and Medicine, Lucerne

Needs, desires and psychosocial outcomes in bereaved parents who lost their child to cancer: palliative end-of-life care in paediatric oncology

Bitten Stetter, Prof.

Social anthropology Bern University & Bern University of the Arts

THINGS OF DYING. assemblages. goods. transmitters. An applied design-anthropological exploration of the current death culture
